REASONS FOR AND THE BENEFITS TO BE DERIVED FROM THE ACQUISITIONS

The Group is engaged in diversified core businesses which include the manufacture and sale of baby and child products, wise games and toy products and health care products ("**Child, Wise and Health Product Businesses**"). The Board intends to use the office space of the First Property as the research and development centre and the back-up supporting office of the Child, Wise and Health Product Businesses, which will also provide enough office space to cope with the future growth and development of the Child, Wise and Health Product Businesses.

The CCT Tech Group is engaged in the manufacture and sale of telecom and electronic products business (the "**Telecom Product Business**"). The CCT Tech Group is committed to product research and development so as to enhance product offerings, improvement in product design and product competitiveness and to bring in new technology for product development, with the objective of achieving improvement in cost and efficiency. The existing tenancy agreement with an independent third party in respect of the premises in Shenzhen which houses the research and development centre for the Telecom Product Business will expire in early January, 2011. As such, upon expiry of the existing tenancy agreement, it is the CCT Tech Group's intention to use the Second Property as the research and development centre and back-up supporting office for the Telecom Product Business, which will also provide enough space to cope with the future growth and development of the Telecom Product Business.

The engineers of the existing research and development centre of the Telecom Product Business were recruited and are based in Shenzhen. Furthermore, the level of wages of Shenzhen engineers and staff is still lower than that in Hong Kong. In addition, as Shenzhen is near to both Hong Kong and the Group's factories in Huiyang and Dongguan, it is a suitable location to establish and maintain the research and development centres and the back offices in Shenzhen in order to improve efficiency and costs. The Group has tried to seek suitable leased office space in Shenzhen. However, the office rental in Shenzhen is increasing and it is not possible for the Group to find a suitable office in a convenient location as the First Property and the Second Property at a competitive rental rate. The Directors believe that the acquisition of the First Property for the Group and the acquisition of the Second Property for the CCT Tech Group will deliver satisfactory return to the Group and the CCT Tech Group in the long term by improvement in management efficiency and coordination and reduction in costs.

Based on the above reasons and benefits, the Directors (including the independent non-executive Directors) believe that the Acquisitions are fair and reasonable and in the interests of CCT Tech and the Company and their respective shareholders as a whole.
